IN THE SPECIFICATION

Please amend the paragraph beginning on page 9, line 15 as follows:

The specific interfaces illustrated in Figure 2 3 are Audio Codec '97 (AC '97), one or more network interfaces (LAN interfaces), a Universal Serial Bus (USB) interface, a System Management Bus (SMBus) interface, power lines and a set of reserved lines. In alternate embodiments, other interfaces can be provided. Core logic controller 320 performs the control functions on motherboard 200. Use and configuration of core logic controller 320 are known in the art.
